

Event Volunteers

There are often call out's for volunteers for one-off events that require many hands working together.

There will be e-mails sent through the PAC class parent e-mail system that request helpers for school events (ie. school concerts, school plays, sports day, etc), class events (field trips, Special Food days, lice checks, class parties, etc), or PAC events (Spring Fair, other fundraising events, parent education events, etc).

For parents who cannot commit to a long-term role in the school, these events are an opportunity to help out whenever it fits with work/home schedule. It is extremely important and encouraging for the parents and staff who volunteer to organize events when parents step forward quickly and enthusiastically to help out in whatever role they can, and for whatever time they can.

These events are usually fun, extra-curricular activities for the children. The Parent Advisory Council and staff appreciate the organizers who step forward to take a larger role, and the support from parent population as a whole in the form of a commitment to help when and where they can.
