

## **Lunchtime Activities**

South Park Elementary is a terrific school serving approximately 400 of our children. But, like every great school community, it faces challenges that can only be conquered through parent involvement. One of these challenges is with respect to noon-hour activities.

Many of our children enjoy the use of the playground equipment while outside on breaks. Many others would like to play ball hockey or basketball on the concrete area. For other children, it would be preferable to make use of the turf field to play soccer, flag football, California kickball, etc. Still others would prefer to remain inside playing board games, learning crafts, making kites, etc.

It is impossible for the three duty monitors to properly supervise the majority of these activities. We need your assistance in order to provide more options for students at lunch time.

Are you able to be part of the solution to this problem? Will you find time to volunteer to supervise or lead an activity once a week or even once a month during the lunch hour break?

If you can be part of the solution, please contact [sppac@deltasd.bc.ca](mailto:sppac@deltasd.bc.ca)
