

Welcome to Parent Connect, an online information portal that allows you to monitor your child's school records and attendance, and update demographic information, emergency and out of province contacts. The system can be accessed from anywhere you have Internet access.

*** Note:** The system is hosted on the school district's server and has the same security measures applied to it as our payroll system. The 'S' at the end of the 'https://' notifies you that this is a secured site. You will also see an icon of a padlock on either the top or bottom bar of your browser. This indicates that the information you enter will be encrypted for security.

Authority and Passwords

Your User Name and Password have been pre-determined. The User Name will be your child's 9-digit Personal Education Number (PEN), which can be found on any of your child's report cards. The password is auto generated from the system and is a combination of letters and numbers. If you are new to the district, contact your child's registered school to obtain your password. Passwords are case sensitive so make sure your Caps Lock is not on when entering your password. The postal code is where the parent/guardian resides. Once you have completed all fields, click the "Sign In" button.

Two common problems trying to sign in are:

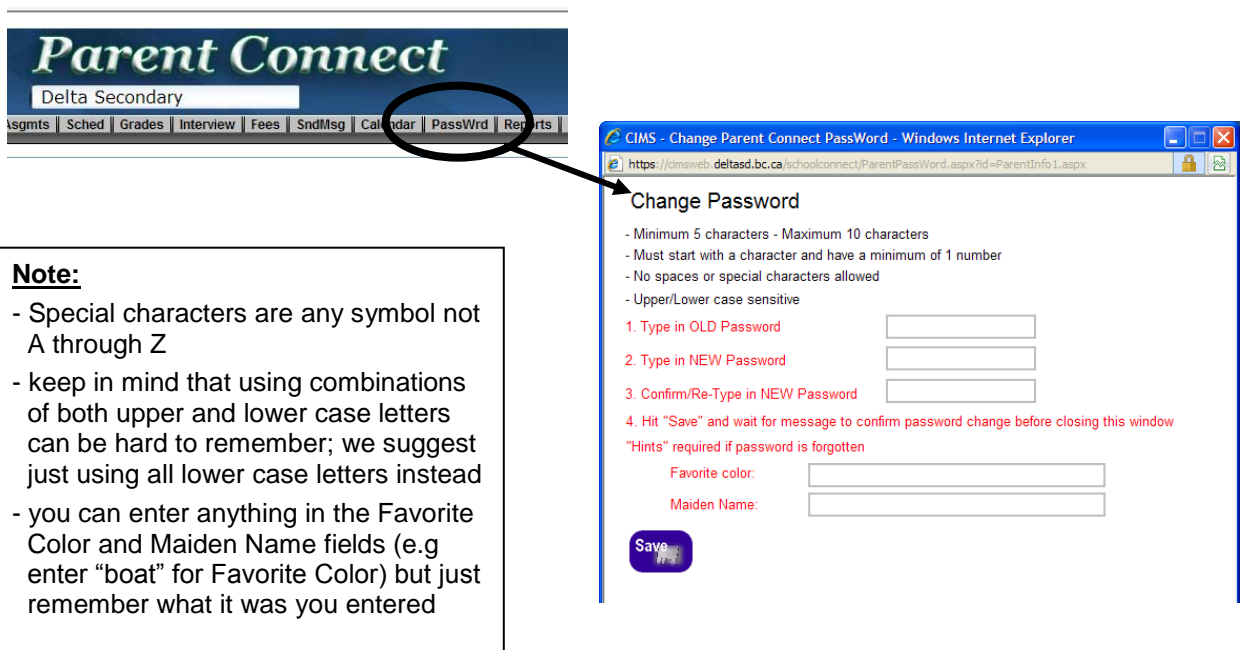

- accidentally mixing up one child's PEN or password with another child's PEN or password
- entering a wrong postal code; this may be due to you accidentally typing it in wrong or perhaps the school accidentally entered it wrong in the student system; if this happens please check with the school to ensure the postal code against your name is correct
- Caps Lock is on

Changing your Password

We recommend that you change your password on a regular basis and do not share the password with your child as your account has the authority to update many demographic fields, including home phone numbers and contact information.

To change your password once you have signed in:

1. Click on the "Password" tab in the top toolbar
2. Enter the current password
3. Enter the new password, using the rules indicated on the screen
4. Reenter the new password on the next line
5. Enter responses to the two security questions (if you forget your password you can use these two security questions to reset your password from the front sign in screen)
6. Click on the "Save" button and wait for a confirmation, then close the window

Where a "Return" tab or button is available, the system will take you back to your child's student information screen.

Updating Information

There are several item sets that we encourage parents/guardians to maintain and do your best to ensure the information in the student system is current and accurate. This is also the reason why we encourage you **NOT** to share your password with your children as they have their own program (Student Connect) which they would be using.

Information sets that can be updated by you are:

- Home, business and cell phone numbers
- Parent/Guardian home and work email, work company name
- Emergency Contact names, relationships, phone numbers
- Out of Province Contacts and Emergency Release names, addresses, phones, email, employer
- Doctor and Dentist name and phone numbers

Important: When making changes **ALWAYS** click on the **SAVE** button before exiting the screen or your changes will not be recorded.

Verifying Your Child's Contact and Emergency Information

Your child's student demographics, such as parent/guardian phone numbers and email addresses, emergency contact names and phone numbers, emergency release and out-of-province contact names, phone numbers and email addresses, Doctors and Dentist names and phone numbers, can be viewed and updated under the "Basic" tab. If parents/guardians notice errors or omissions in any of this information we encourage you to make the change directly into the system. Click on the "SELECT" button to the left of the appropriate line. A window will open on the right of the screen to make the change(s). Always click the "SAVE" button before exiting any screen for which you made changes.

*To add, change or delete **Emergency Release, Out of Province or Additional Contacts** please click on the button: "Emergency/Out of Prov/Other Contacts" to make those changes.*

To update information, such as parent/guardian names and relationships or your address in case you move, please contact the school office as this type of information cannot be changed through Parent Connect.
